STORIA

H I S T O R Y

La Bottega di Mastro Fiore nasce nel 1991 da un'idea di Fiore Pinardi, erede di una tradizione che, nella lavorazione del legno, si tramanda da padre in figlio dal lontano 1888.

L'attività inizia con la produzione di mobili e arredamento per interni riservata ad una clientela privata per poi svilupparsi, avvalendosi di una grande innovazione tecnologica, nel settore dell'arredo bagno.

Ad oggi all'interno dello Stabilimento Mastrofiore, vivono e si integrano parallelamente due anime: una fortemente industriale relativa all'arredo-bagno sostenuta da un'efficiente rete commerciale e dall'innovazione dei metodi e dell'attrezzatura, ed un'altra tradizionalmente artigianale che permette nel mercato locale di operare con un efficiente servizio al consumatore ed un ottimo rapporto qualità prezzo.

The Workshop of Mastro Fiore was established in 1991 and it originated from an idea of Fiore Pinardi, the heir to a tradition of wood-working handed down from fathers to sons since 1888.

This enterprise began with the production of furniture and home furnishings exclusively for private clients. This production later expanded into the bathroom furnishing field by taking advantage of significant technological innovations.

To date, within the Mastrofiore plant, lived and integrate two souls at the same time: a strong industrial imprint for bathroom furnishings supported by an efficient sales network and by the innovation of methods and equipment, and another traditionally crafted one that finds in the local labor market with an efficient service and an excellent value for money.

Lavabi IN VETRO GLASS

L'utilizzo del vetro per la produzione di lavabi risulta una delle massime forme di espressione del nostro design. L'utilizzo di un materiale ad impatto ambientale nullo ed una forma materica del tutto non convenzionale stupiscono se associati alla produzione di complementi per l'ambiente bagno, quali i lavabi. La tempra a fondo curvo sviluppata sui nostri progetti permette ai nostri lavabi in vetro il perfetto deflusso dell'acqua e la trasparenza del materiale lascia stupiti dai giochi di movimento che il fluido naturalmente crea. Una scelta anticonvenzionale per l'arredo di un bagno decisamente di carattere.

The use of glass for the production of washbasins is one of the highest forms of expression of our design. The use of a material with zero environmental impact (completely recyclable) and a completely unconventional material form amaze if associated with the production of bathroom accessories, such as washbasins. The curved bottom developed on our projects allows our glass washbasins the perfect water flow. The transparency of the material leaves you amazed by the games of movement that the fluid naturally creates. An unconventional choice for furnishing a bathroom with a distinct character.

PIATTI DOCCIA

acrilico h3

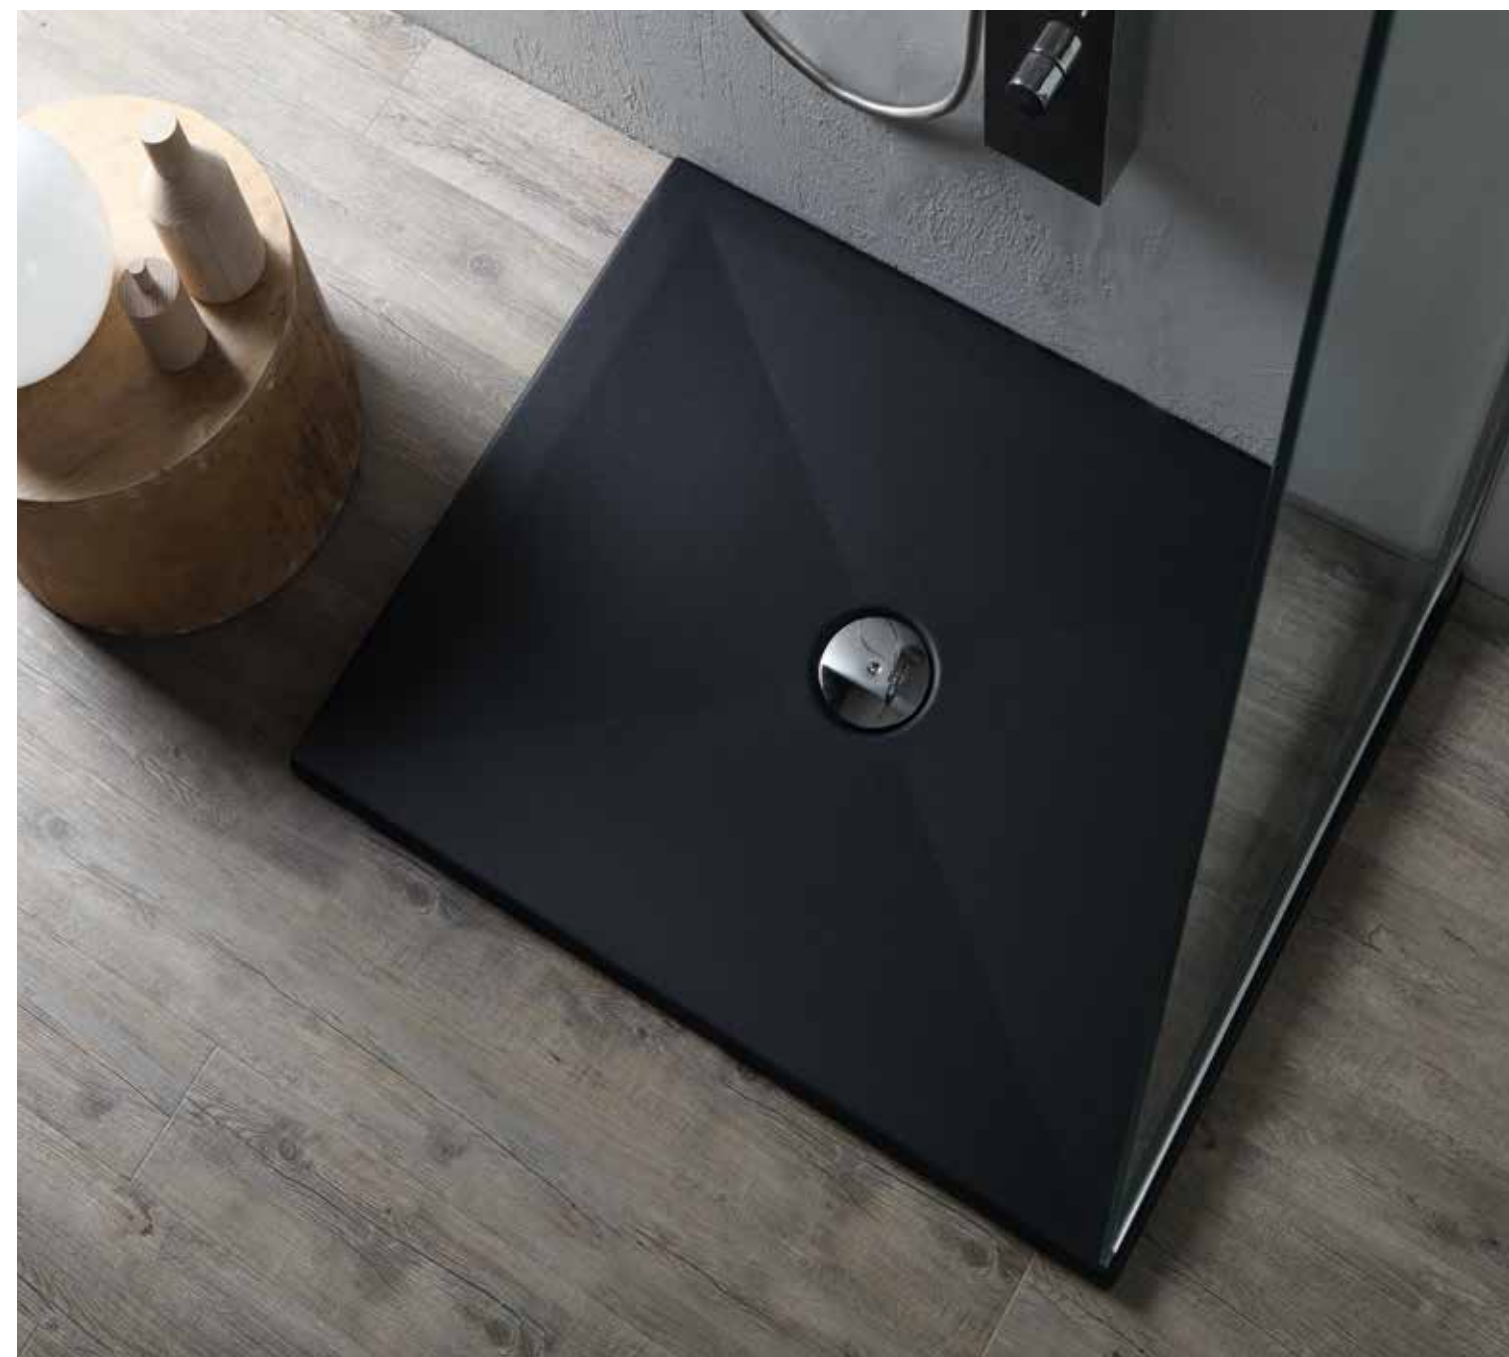

Piacere a pelle, questa è la sensazione che l'acrilico esprime una volta venuti a contatto con lui. Grazie al suo impiego nel settore bagno, Mastrofiore ha utilizzato l'acrilico per la produzione di una vasta gamma di piatti doccia. La percezione del tatto viene rispettata, anzi viene esaltata dalla superficie liscia dell'acrilico con l'antiscivolo integrato e dalla nuova finitura Velvet che esprime la sua morbidezza e la delicatezza quando, dopo una giornata faticosa, si entra in doccia e ci si rilassa.

Pleasant to the touch, this is what one feels when comes into contact with the acrylic surface. In its dedication to the bathroom environment, Mastrofiore has manufactured a variety of shower trays using acrylic. The perception of touch is highlighted by the smooth acrylic surface integrated with the anti-slip finish and the new velvet finish which offers a delicate softness when, after a long tiring day one takes a shower in order to relax.

I piatti ribassati sono espressione di un design moderno e hanno maggiori contenuti estetici; sono spesso poco profondi ma con uno scarico $\varnothing$ 9 cm per favorire un rapido deflusso dell'acqua.

La texture del piano regala al piatto doccia un effetto antiscivolo senza applicazioni e, inoltre, valorizza la superficie, donandole un aspetto morbido e piacevole.

Low profile shower trays are the expression of a modern design and have additional aesthetic content; although often shallow but with a $\varnothing$ 9 cm drain rapid water flow and evacuation is guaranteed.

The texture of the surface gives the shower tray a non-slip effect without applications and, moreover, it adds value to the surface, giving it a soft and pleasant aspect.

PIATTI DOCCIA

s c r e e h 2,5 / 3

Il piano inclinato facilita lo scorrimento dell'acqua e con soli 2,5 cm di altezza si adatta all'installazione sia filo pavimento che sopra pavimento. Il piatto doccia viene fornito completo di piletta di scarico e copertura in acciaio inossidabile.

The sloped grade of the shower tray permits to water to flow effortlessly and, with a total height of only 2.5 cm., the tray can be installed directly on the bathroom floor or built in flush with the flooring. The shower tray comes complete with trap and stainless steel drain cover.

I dettagli, come la finitura materica e la piletta fanno di questi piatti doccia dei prodotti di alta qualità estetica nella definizione degli spazi architettonici.

The details, such as the material finish and the drain make these shower trays high aesthetic quality products in the definition of architectural spaces.

PIATTI DOCCIA

jungle h4

Montati a filo pavimento o ritagliati in base alle vostre esigenze creano una continuità dello spazio senza interruzioni. La grande griglia è in acciaio inox spessore 2 mm assicura un elevato flusso di scarico (da 40 a 56 litri/minuto). È amovibile per la pulizia più profonda.

Installed flush with the flooring or cut to size, these shower trays permit a continuation of space without interruptions. The large stainless steel grated drain with a 2 mm thickness, assures a high flow rate of 40 to 56 liters per minute. The trap is accessible for easy cleaning.

Lo scarico dell'acqua è posizionato lungo tutta la lunghezza del lato corto. La pendenza necessaria è già prevista. Il vero plusvalore del nuovo piatto doccia Waterland è il nuovo scarico più snello di forma rotonda, la griglia è ora davvero vicinissima alla parete.

The water drain is positioned along the entire length of the short side of the shower tray. The necessary slope has already been calculated. The added value of the new Waterland shower tray is the new slender, round shape waste with the cover grate positioned very close to the wall.

NOTE	TIMBRO E FIRMA DEL CLIENTE

La Bottega di Mastro Fiore garantisce i propri mobili e i complementi d'arredobagno per un periodo di due anni dalla data di acquisto, e si riferisce esclusivamente ai top ed ai mobili e non a sistemi di fissaggio. La garanzia comprende esclusivamente la sostituzione o la riparazione dei componenti che risultassero difettosi per vizi di fabbricazione. L'eventuale sostituzione del prodotto potrà essere effettuata ad insindacabile giudizio della Bottega di Mastro Fiore e non comprende comunque il rimborso dei costi di trasporto e gli eventuali costi di smontaggio e di rimontaggio del mobile o parti di esso. Non sono coperte da garanzia tutti quei mobili compresi i loro componenti che risultino difettosi a causa di negligenza nell'uso, montaggio e installazione e manutenzione non idonei. La Bottega di Mastro Fiore, declina ogni responsabilità per eventuali danni che possono, direttamente o indirettamente, derivare a persone, animali o cose, in conseguenza della mancata osservanza di tutte le prescrizioni contenute nelle istruzioni di montaggio e manutenzioni dei prodotti. Differenze di tonalità di colore che nel tempo possano verificarsi, non sono indice di vizio ma una normale conseguenza dell'esposizione a sorgenti luminose di diversa intensità.

Gli imballi sono in scatole di cartone personalizzate con il logo e l'indirizzo della Bottega di Mastro Fiore. Nel loro interno gli articoli sono protetti con una pellicola di foam (materiale protettivo e termo-isolante) e con angoli di polistirolo e/o salvabordi in p.p.e. Al momento di estrarre il prodotto dalla scatola verificarne l'integrità e non usare strumenti taglienti che possano danneggiare l'interno della confezione stessa.

Pulire con panno morbido inumidito in acqua o con soluzione detergente leggera ed esente da prodotti contenenti solventi e/o materiali abrasivi.

Deve essere eseguita da personale qualificato.

Evitare usi impropri e non adeguati al prodotto. Eventuali manomissioni od installazioni non rispondenti alle istruzioni fornite dal produttore possono inficiare le conformità e le proprietà prestabilite del prodotto.

Per la destinazione d'uso prevista, il prodotto non è tossico o nocivo all'uomo né agli animali o all'ambiente.

Quando il prodotto non è più utilizzato, tutti gli accessori, componenti e quant'altro lo costituisce non vanno dispersi nell'ambiente, ma conferiti ai locali sistemi pubblici o privati di smaltimento conformi.

La Bottega Di Mastro Fiore guarantees its furnishings and accessories for a period of two years from the date of purchase; this applies solely to tops and units and not to fixing systems. The guarantee only covers the replacement or repair of components that are faulty owing to manufacturing defects. Any replacement of the product will be carried out at the complete discretion of La Bottega Di Mastro Fiore and in any event does not include a reimbursement of transport costs or costs relating to the dismantling and reassembly of the unit or parts thereof. The guarantee does not cover units or their component parts that are faulty as a result of negligent use, assembly and installation or inappropriate maintenance. La Bottega Di Mastro Fiore accepts no liability for any injury that may, directly or indirectly, occur to persons, animals or things, resulting from a failure to observe all the directions in the product assembly and maintenance instruction manual. Differences in colour shade that may occur over time are not a sign of a fault but are a normal consequence of exposure to light sources of various intensity.

Units come packed in personalised cardboard boxes with the company logo and address of La Bottega Di Mastro Fiore. Inside the box, items are cushioned by a layer of foam (protective and thermally-insulating material) and by polystyrene corners and/or PPE edge protectors. Check that the product is intact when it is removed from the box and do not use sharp instruments that might damage the inner packaging.

Clean with a soft cloth dampened with water or a mild detergent solution and avoid products containing solvents and/or abrasive materials.

Must be carried out by qualified personnel.

Avoid improper and unsuitable use of this product. Any tampering or installation not in accordance with the manufacturer's instructions may invalidate the product's conformities and pre-set properties.

Under its intended conditions of use, this product is not toxic or harmful to people or animals or to the environment.

When the product is no longer used, none of the accessories, components or other parts should be disposed of with general household waste, but should be taken to a local public or private waste disposal plant that complies with current legislation.
